## Professional Experience

---

### Independent Contractor | Web Developer

Minneapolis, MN 03/2023 - Present

- Built and manage a WordPress e-commerce site for a local jewelry and watch repair store integrating WooCommerce, SEO, and GA4.
- Maintain website content, optimize UX, and run digital marketing through social media and AI tools.
- Turnkey website development.

### ChannelPilot | Front End Developer

Hamburg, Germany 04/2022 - 10/2022

- Built new components and pages in a large Vue-based application.
- Wrote unit tests (Jest) and end-to-end tests (Cypress) for new and existing features to ensure full test coverage and improve stability.

### Knubisoft | Front End Developer

Kharkiv, Ukraine 03/2021 - 11/2022

- Developed the front-end of several SPA applications from design mockups to deployment using Vue.js.
- Led a full revamp of a client-facing application using React, significantly increasing app traffic.
- Mentored a small team of junior developers, guiding best coding practices and coding standards.

### Quadecco | Web-developer

Kharkiv, Ukraine 02/2020 - 03/2021

- Improved and maintained an existing jewelry e-commerce platform built with PHP and TWIG, working with a MongoDB-based backend. Contributed to UI enhancements, fixed layout and responsiveness issues, and implemented new features such as product galleries, updated product cards, and design adjustments across the site.

### Sitio | SEO Specialist

Kharkiv, Ukraine 02/2015 - 04/2016

Optimized site SEO through link strategy, copywriting, and contextual advertising, increasing traffic by 25%, boosting Google visibility, and reducing loading speed by 20%.
